BRIDGEMAN NIGHT DEPOSITORY

Features

With standard capabilities for both envelope and bag deposits, our single door night depository provides customer access for both envelope and bag operations. The envelope opening allows access without the use of a key, while the bag opening requires a key to be accessed.

The large capacity bag deposit compartment is exposed only when the required key has operated the lock in the depository frame.

- Twenty-five keys are supplied available with bag only operation requiring a key with each use
- Unique receptacle design insures positive movement of deposit into receiving safe
- Convenient, weather-protected forms compartment
- An alarm contact switch is incorporated into the design for easy connection to alarm systems. This contact is activated if forced removal is attempted
- Designed for either walk-up or drive-up installation
- Compatible with ATM activation for receipt and photo ID
